--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

Soybean Cake and Meal

Reported export commitments to known destinations increased by 283,000 M.T. during the week, the second largest weekly increase since the marketing year began October 1, to a total of almost 7.6 million M.T. New sales were reported to France, West Germany, Netherlands, Italy, Portugal, East Germany, Hungary and Poland. Total export commitments increased by 121,000 M.T. Sales to known destinations increased by a much greater quantity than the decrease in sales to unknown destinations. At 2.5 million M.T. the latter reached its lowest level during the marketing year, while commitments to known destinations at nearly 7.6 million M.T. were at their highest level. Although total reported export commitments are far higher, actual exports since October 1 have been at an annual rate of 3.2 million M.T., well below the USDA forecast.

Cotton

Reported export commitments for U.S. upland cotton during 1974/75 declined by about 8,000 bales during the week to 4,123,000 running bales (RB). Additional commitments to European destinations were slightly more than offset by reduction in Asia. Fifteen hundred RB of American Pima cotton were reported sold to Spain, bringing total export commitments for U.S. extra-long staple cotton in 1974/75 to about 15,000 RB. Exports during the week were 24,000 RB for a total of 467,000 RB to date. Total commitments include 83,000 RB to unknown destinations, a decline of 4,000 RB from last week and the peak of 135,000 RB in early August.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on November 7, 1974, release:

Wheat

Reported export commitments to known destinations (exports plus outstanding sales) during 1974/75 increase by 1.2 million metric tons (M.T.) during the week ending October 27 to a total of 20.8 million M.T. The increase resulted mainly from new sales to Egypt, Morocco, Japan, Republic of Korea and the European Community (EC). Outstanding sales to unknown destinations dropped by 50,000 M.T. during the week to a total of 1.4 million M.T. The annual rate of inspection for export since July 1 continues to fall within the range of the current USDA forecast of wheat exports for the full marketing year (see page 35) although total export commitments of 22.2 million M.T. are still below the forecast.

Feed Grains

Reported export commitments to known destinations during 1974/75 rose by 756,000 M.T. during the week to a total of 32.3 million M.T. New sales to the EC, Eastern Europe and Japan accounted for most of the increase. Outstanding sales to unknown destinations dropped to about 3.5 million M.T., a decrease of 197,000 M.T. during the week. The annual rate of corn exports during the first 4 weeks of the marketing year was just under 16.4 million M.T., compared to the USDA forecast of 22.2 - 23.5 million M.T.

Rice

Reported export commitments to known destinations during 1974/75 increased by about 8,000 M.T. during the week to reach a total of 886,000 M.T., while outstanding sales to unknown destinations rose by about 6,000 M.T. to total 106,100 M.T. Although total export commitments are still below the USDA forecast, substantial quantities remain to be programmed under P.L. 480.

Soybeans

Reported export commitments to known destinations during 1974/75 increased by 202,000 M.T. during the week to a total of 16.1 million M.T. This was the smallest weekly increase since September 29. New sales were reported to Italy, Spain, Poland and the Republic of China (Taiwan). Reported sales to unknown destinations dropped to just under 2.3 million tons, a decrease of 26,000 M.T. The annual rate of exports since September 1 is 10.8 million M.T., still below the USDA forecast and the total of reported export commitments.
